

The Next Generation in Rubber Granules

Would you like a rubber surface with colours that last and last and last through the years?

TPV is just what you've been looking for.

Benefits:

- Superior UV stability and weather resistant (as per test results measured in a QUV Weatherometre Machine)
- Does not leach out black carbon or colour pigments
- Long wearing
- High elastic recovery
- Colour consistency
- Does not contain heavy metals, non toxic, non allergenic
- Made from the highest quality virgin polymer
- Complies to Australian Standard AS/NZS4422:1996, as well as global standards
- Available in 18 standard colours and now 4 new sparkle colours

Along with **TPV**, Surface Designs also imports 1,000 litre and 220 litre drums of the highest quality Flexilon Polyurethane in both aromatic and aliphatic grades.
